

SUBSCRIPTION RATES:
 One copy, one year, \$3.00
 One copy, six months, \$2.00
 One copy, three months, \$1.00

Job work of every description done promptly and in the very best and most artistic manner, at reasonable rates.

Local Items.

40,000 pounds of lime for sale at J. M. Ochoa's.

The Gila river near Florence is running full.

Mr. M. W. Hart spent last Sunday in Pinal.

Mrs. Charles Starr left for Pioneer on Monday.

Heavy rains reported north of Clifton on August 15th.

David T. Beasley of Pinal came over to Florence last Sunday.

The board of Supervisors adjourned on Friday until Monday next.

J. D. Rittenhouse had his store photographed by Buchman last week.

Messrs C. W. Culver and E. B. Johnson were in Florence last Sunday.

Mr. W. J. Bley of Silver King, is in Florence, on a visit of a few days.

Mr. Manuel S. Ramirez was in Florence this week from his Picocho ranch.

The heaviest rain of the season fell in and around King and Pinal last week.

Zamora Cigars as Weedin & Meek's—2 for 25cts or \$7 per 100—\$3.50 for 50.

Several tons of Mammoth concentrations were taken to the Tucson Sampler.

Mr. Fabien Moreau returned to Florence last Saturday accompanied by his nephew.

Mr. J. Kennedy of Redington, advertises 500 head of stock cattle for sale at a bargain.

Mr. Jacob Suter passed through Florence from Pinal on his way to California on business.

Mr. M. Snyder of Mineral Creek, reports the boys hard at work on their various properties.

Mrs. H. B. Summets left on Monday for Silver King, to spend a few days with her daughter.

Weedin & Meek have just received a lot of La Doncella Cigars—4 for 25cts or \$1.50 per box of 25.

Supervisors T. D. Hammond and Arthur Macy will spend Sunday at Silver King, returning on Monday.

A pleasant dance was participated in by our Mexican citizens in Charley Lewis' building last Saturday evening.

The real estate agents of Florence are kept busy showing new comers around and answering inquiries about this wonderful county.

Mrs. W. H. Sutherland and her two children, of Pioneer, are in Florence visiting Mrs. Sutherland's parents, Mr. and Mrs. James Douglas.

Billy Harter got back from his trip last Monday and expresses the opinion that he won't have to make many more to wind up the business.

Mr. D. S. Thomas, president of the Florence Canal and Water Company, left on Tuesday for Carthage, Mo., to be gone about three weeks.

Messrs. Hammels and Earl have purchased the Tunnel saloon of Mr. J. N. Walker, and announce that they propose conducting a first-class resort.

Mr. Blake of Mammoth, is taking in Florence and may invest in a corner lot or so. Mr. Blake will go from here to Globe and back to the Mammoth.

Mr. E. B. Moden, the very efficient bookkeeper for the Messrs. Luedke Brothers, in Pinal, will soon take a vacation of a few weeks and visit California.

The people who go from Maricopa county to Prescott to find a cooler climate, can find in the Pinal Mountains a much better temperature and closer to home.

Mrs. McAfee, of Phenix, passed through Florence last week on her way from Pinal and King. Mrs. McAfee is the possessor of 320 acres of fine land on the Grand Canal.

Mr. John J. Devine has resigned his position as deputy collector of Customs at Tucson and will soon return to Florence to reside permanently. He has proved a very efficient official.

Sheriff Fryer has received the cheering information that the health of his little daughter has considerably improved and hopes are now entertained that she will rapidly recover.

Mrs. Wm. Clarke and her mother, Mrs. Simmons left for Lawton, Mich., their old home, last Saturday. Mrs. Clarke's health has not been good and a change of climate was necessary.

A raffle for a monkey, at a dollar a chance, is being arranged by the owner of a tenejon on Bailey street. Now is the golden opportunity for those who are suffering for a monkey.

Mr. A. T. Colton has been engaged by the Florence Canal and Water Company to attend to such engineering work as may be necessary until the new contracts are let for the completion of the work.

Supervisor Hammond came in on Sunday to meet with the Board. Mrs. Hammond accompanied her husband as far as Florence and continued on to the King, where she will remain a few days.

Joe Thompson the contractor for the stone work on the Globe court house is in need of stone masons. Masons in need of work should correspond with Mr. Thompson on or before the 10th of September.

The revised tax roll for Pinal county foots up as follows: Total value of land and improvements, \$915,789.62; total value of personal property, \$886,589.91. Total value assessed, \$1,802,379.53. The tax levy is \$2.70 on the \$100.

Mr. W. V. Elliott will give \$50 for proof that will convict the persons who have been shooting his burros that are grazing along the river opposite Round valley. Several of them have been badly wounded with bird shot by some persons unknown.

Mr. G. H. Hopkins, mayor demo at Richardson & Gormley's Pennsylvania ranch at Crittenden, Pinal county, has been visiting his family in Florence. He started for the ranch yesterday and may soon return to reside in Florence and enjoy the boom.

Found Dead.

Word was brought into town early Wednesday morning that the body of an unknown man had been found in a canyon above Round Valley not far from the Butte. Justice Bo. J. Whiteside, as ex-officio Coroner, summoned a jury and went out to hold an inquest. The jury was composed of Messrs. E. O. Smith, F. Le Blanc, Chas. Rapp, E. P. Drew, J. G. Keating, and E. Cadotte, and they returned the following verdict:

"We the undersigned jurors summoned to appear before Bo. J. Whiteside, J. P. and ex-officio coroner of Pinal county, Arizona, at Florence, on the 24th day of August A. D. 1887, to enquire into the cause of the death of an unknown person found about 12 miles from the town of Florence, at a point about 24 miles from the residence of James Brash in a south-easterly direction, and about 4 miles from the Butte, in a south-easterly direction, having being duly sworn according to law, and having made such inquiry after inspecting the body and hearing the testimony adduced, upon our oaths each and all do say: That we find the name of the deceased is unknown, that we believe him to be by birth a Mexican; that he was about 25 years of age; that he was about 5 feet 9 inches in height; that he had been dead for a period of about 24 hours; that he was found, but that he was not found; that he came to his death by means unknown to us and whether the same was accidental or intentional we have no means of knowing."

The body was naked and the clothes of the deceased were hanging in a bush near by. There were no papers nor effects about them to serve to identify the deceased. An old wagon track was observed, having went up the canyon and circled around where the body was found, and returned, but whether this was done before or after the person's death is not known. It is probable that the mystery will never be solved.

New Lodge in Pinal.

A lodge of the Ancient Order of United Workmen of twenty charter members was instituted at Pinal on Monday, August 22d, by Past Grand Master Geo. W. Brown, with the following officers:

Past Master Workman, Jas. L. Stowe. Master Workman, Frank G. Howser. Foreman, R. H. Chamberlain. Overseer, Wm. T. Rouse. Recorder, John H. Luedke. Receiver, Robert Williams. Financier, John D. Bailey. Guide, John Nissen. Inside Watchman, Frank P. Morrell. Outside Watchman, Geo. W. Rouse. Trustees, John C. Woolhomes, Richard E. Hunter, Fred E. White. Medical Examiner, Dr. T. H. Kennard.

The new lodge was named Picket Post Lodge No. 9, and it meets every Saturday evening.

During the same evening Mountain Legion No. 4, Select Knights, A. O. U. W., was instituted, and will meet on Monday nights. Its officers are as follows:

Past Commander, E. B. Moden. Commander, Fred E. White. Vice Commander, Henry N. Tharsing. Lieut. Commander, Robert Williams. Marshal, John C. Woolhomes. Standard Bearer, Richard E. Hunter. Recorder, John H. Luedke. Recording Treasurer, Frank G. Howser. Treasurer, James L. Stowe. Senior Workman, R. H. Chamberlain. Junior Workman, Frank P. Morrell. Guard, John Nissen.

At the close of the exercises a bounteous spread of refreshments were served in the hall and a very pleasant social hour was passed before the members dispersed. Both the Lodge and the Legion start out under highly auspicious circumstances, and they promise to become large and influential in the course of a few months.

The town of Pinal can boast of a novel industry, that has no imitators anywhere in the broad world. It is no less than the manufacture of centre tables, picture frames, smoking sets, and similar articles from cactus. He uses the mountain and valley cholla chiefly, and thin boards sawed from it presents a beautiful appearance from their grained and twisted and shadowed perforations. The wood is tough and as hard as oak, which it somewhat resembles, and when joined together in a table top and highly polished, the result is strikingly handsome. The net like fibre of the prickly pear makes an exquisite ornament when skillfully attached, and it is particularly attractive when shaped into picture frames and such articles. It is nature's filigree carved and shaped in perfect detail far beyond the imitative capability of man.

Mr. White is now preparing a number of specimens of his antique handicraft for exhibition at the Mechanics' Institute in San Francisco, next month, where they will receive the attention of a discriminating and fastidious public.

Mr. White will surely be the means of creating a highly profitable industry in the use of one of the products of Arizona hitherto regarded as the most abominable and useless incumbrances of the ground, and his sagacity and enterprise merits the recompense the popularity of his handicraft should give to him.

The Crispin.

SILVER KING, August 22.

EDITOR ENTERPRISE.—In the Crispin drifts are being run north and south from the bottom of the 100-foot shaft. A dump is being built that reminds the old timers of that of the Silver King, its neighbor, about ten years ago, when that grand old mine was showing the richest ore ever taken out of the bosom of mother earth, when Aaron Mason, who opened its treasures, sent its name across the continent as the king of silver mines. The boys who worked in that mine at that time all say that the Crispin is coming into line with the Silver King to do its duty as a producer. Its superintendent, B. W. Connolly, well knows its value and is pushing the work as fast as possible. He thinks he will have the mill on Queen creek crushing the ore in side of sixty days. Everybody wishes the Crispin complete success and hope it will soon be added to the list of Pinal county's steady producers.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of Discovery he was well and had gained in flesh thirty-six pounds.

Trial bottles of this Great Discover free at J. D. Rittenhouse.

Just received at Weedin & Meek's, Sunny Spain Cigars—4 for 25 cents or \$1.50 per box of 25.

Mrs. Payton is having her newly purchased property on Pinal street improved. The house is undergoing repairs and will be enlarged, and the property will be fenced.

The board of supervisors have put in a very busy week attending to their arduous duties. Pinal county was very fortunate in securing supervisors of such intelligence and ability.

By an oversight the name of Judge H. B. Summers was omitted from the published report of the proceedings of the Pinal County Live Stock Association as its Vice President.

Mr. J. Champion, of East Oakland, California, owner of the lumber yards at Casa Grande and Pinal, passed through Florence on Thursday the latter place, on his usual summer visit.

Mrs. J. M. Ochoa presented her husband with a daughter last Tuesday, August 23d. Mr. Ochoa is naturally pleasant over the event for he now holds three of a kind that beat anybody's two pairs.

Mr. W. Vernoy of Florence has been appointed superintendent of the construction of the double compartment shaft at the Owl Heads mines of the Tortilita Mining Company, by Manager D. T. Elmore.

The school trustees have had doubting hinges placed on all the school-house doors so they will swing either way. This is done to facilitate the exit of the scholars in case of an alarm, and it is a very sensible action.

General Sparks has disgusted the ENTERPRISE "devil," who has abandoned his desert land claim because of the rise to \$2.50 per acre. Uncle Sam not only keeps the 640 acres of his desert domain, but he has the very devil to pay—25 cents per acre already tendered.

There is a reward of \$250 offered for the apprehension of Ben Decker, supposed to be implicated in the attempted assassination of Mr. N. White. He was recently captured at Wilcox, but escaped before the Pinal officials reached that place.

Messrs. A. J. Doran, P. R. Brady, J. D. Rittenhouse, Jose M. Ochoa, and Father Monfort have been appointed by the board of supervisors as a committee to select a suitable site for a cemetery. The old one in the town is to be abandoned and the bodies removed.

The very cool nights indicate that the hot summer weather is about over, and gradually the pleasant fall days will come on. From the middle of September until the middle of May the climate of Florence will be as nearly perfect as any in the world.

Owing to a severe illness that will incapacitate her from the duties of principal of the Florence public school, Miss Meek has declined that position. Mr. Watson, of Monona, Iowa, has been tendered the place and he will arrive here in a few days. The school will be open September 5th.

Mr. Wm. Steffy has bought the Tunnel saloon in Pinal and will take possession on September 4th. The building he now occupies will be refitted by its owner, Mr. Chas. F. Murray, who will also conduct a saloon business. Mr. Kuehl, the proprietor of the Tunnel, will go to California to reside.

The thanks of the ENTERPRISE are tendered Mr. Harry Buchman for a set of splendid views of the Vekol camp, photographed by him a few weeks ago. Not only does the camp and works appear in faithful representation in several views, but the picture of its owner, Judge J. D. Walker, accompanied the set.

The Tucson Star claims to have reliable information that the train robbers secured \$71,000 in currency and \$13,000 in gold, making a total of \$84,000 in booty. They can afford to have a little fun by leading their pursuers over the rugged mountains and then eluding their vigilance, and evidently they are old jokers in such amusement.

Mr. James Lillie has presented the ENTERPRISE with a piece of coal from the Deer creek fields. It is a good looking article and it is said it possesses first-class cooking qualities. The opening of these mines will work wonders in the treatment of ores in southern Arizona, for the question of fuel is the most important consideration for reduction works.

The well of the Florence Ice and Water company is now down close to water, which will likely be found in abundance at about 56 feet from the surface. Nearly all the wells in and about Florence are sunk below the level of the river bed and the supply of water comes from the south, showing conclusively that the river has no effect upon the supply which comes from an entirely different source.

Messrs. Henry Leincker and John Havstrom own a very promising mining claim a short distance north of the Silver King upon which they have done a considerable amount of development work. The ore is rich and if the present promise of the mine is fulfilled with depth, they will have a property worthy of the neighborhood in which it is located.

Mr. A. P. Walbridge has retired from the management of Mr. J. Champion's lumber yard in Casa Grande, to engage in business at Phenix, and Mr. Hugh Chalmers of California, takes his place. Mr. Chalmers is said to be a very pleasant and agreeable gentleman who will win the esteem of the people of this portion of Arizona.

In one of Mr. J. D. Rittenhouse's store rooms there is a very choice cigar that was purchased at a big gain. They are better cigars than those usually retailed in this section and they will be closed out at surprisingly low prices to the trade. Dealers will make money by consulting Mr. Rittenhouse before purchasing their cigars elsewhere, and test samples and learn prices.

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys, or Blood. Only a half dollar a bottle at J. D. Rittenhouse's.

The finest turnouts in the country and the best stock, at Drew & Bamrick's livery stable.

A Trip to the Mammoth.

Horatio Collins and Willis H. Haynes returned yesterday, from Mammoth where the latter photographed for Mr. Collins, the well-known Hackney group of mines adjoining the Mammoth, besides securing other fine views about the great old camp.

Mr. Haynes informs us that he never saw a finer showing than the Hackney mines present. Hackney Hill, for a width of fully a thousand feet, seems to be a solid mass of low grade gold ore identical in character with that upon which the Mammoth's thirty stamps are pounding day and night. Everything in and about Mammoth seems to be highly prosperous, and the camp promises great things in the future.

While passing through Box Canyon, Saturday afternoon, en route homeward, Messrs. Collins and Haynes had the usual and somewhat exciting experience of being chased by a cloudburst. They saw the water coming towards them, only a short distance ahead, and had barely time to turn the horses about and run back a quarter of a mile to a high spot of ground, when the rushing flood passed by. At that point the stream was fully sixty feet wide and two feet deep. Had they been caught in the narrowest part of the canyon, they would have had trouble to save even their lives, as the water was six feet deep at that point. As it was, they were only detained an hour and a half, by which time the water had subsided and they were enabled to proceed.—Citizen.

There is a lively demand for those splendid residence lots in the Western Addition, and that tract will be a lively scene of active building during the coming fall. The Florence Ice and Water company will have their mains laid in a few weeks, affording an abundant supply of good and wholesome water to property owners. The land has all been under cultivation and needs no preparation for planting lawns and trees. There is no better opportunity for investment to be found anywhere in the valley, than the Western Addition to Florence presents, and within a year from to-day every lot will be worth five times the price now asked. Those who wish to secure choice locations should consult Messrs. Oury & Guild without delay.

Physicians Have Found Out.

That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive subcutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calculus, chalky deposit which produces stiffness and distortion of the joints. No fact which experience has demonstrated in regard to Hostetter's Stomach Bitters has stronger evidence to support than this, namely that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.

Dr. O. F. Thornton, general manager of the affairs of the Perrin Land and Cattle Company—one of the largest live-stock concerns in the west, paid Prescott a flying visit during the week. The Doctor is enjoying one of the luxuries of being a cattle-king in the way of a lively warfare with sharks of the Land Office.—Hoof & Horn.

There is not a bigger land shark on the Coast than E. B. Perrin, head of the above firm. Perrin is also principal owner in the so-called Babacomari land grant, where many settlers' houses were burned up or blown up, fences cut and cattle killed. Intimidation is still the rule on the Babacomari, and we presume it works that way in Yavapai.

The programme of the sword presentation to General Miles, on September 5th has been announced. The exercises will occur at 4 o'clock in the afternoon and will be held at the residence of Mr. W. H. Barnes. A general reception will be held from 8 to 9 p. m., and will be followed by a dance. Many military people and prominent gentlemen will attend, among them Governor Luis Torres and staff, of Sonora. Among the reception committee are the following residents of Pinal county: Messrs. J. D. Walker, P. R. Brady, Arthur Macy, and Geo. W. Brown.

It is probable that the mineral discoveries made in the Superstition mountains will be thoroughly prospected next winter. The leads are all large, and one eight feet in width assays from \$12 to \$39.50 per ton in gold. These are situated in the extreme western edge of the mountains and if developed into mines, will add to the business of Phenix. The reporter learns that Judge J. D. Reymont of Pinal, has two men at present engaged in developing a claim, which unfortunately is in dispute. Francis Cutting of San Francisco has proposed to sink a shaft 100 feet in depth on one of the leads, for an interest in the property. It is understood that his offer has been accepted, and that the work will be done the coming fall.—Phenix Arizona.

Facts About Farmer Armstrong.

Mr. Frank Armstrong of Dodge Township, was the winner of \$5,000 in the Louisiana State Lottery. The cash was received by Mr. Truman, banker, here in full. It was one-twentieth part of the second capital prize (\$100,000) which was drawn by ticket No. 21,658, for which one twentieth part Mr. Armstrong paid one dollar about a month ago. He is a substantial farmer of about 55 years, has raised a family in Union county, and he lost his wife a few years ago; he is unmarried.—Afton (Iowa) Tribune, July, 6.

The ENTERPRISE returns thanks to Supt. D. T. Elmore, of the Tortilita mining company, for the many courtesies extended one of its publishers during a recent visit at the Owl Heads.

The home of Mr. and Mrs. Elmore has been made very pleasant and inviting, and it is being surrounded with trees, shrubbery, and varieties of fruits. Their strawberry plants are particularly thrifty and promise to yield handsomely.

A child only three days old was stolen from its parents in this place a few days ago and an ugly rumor was current that the babe was fed to the hogs. A woman was arrested on suspicion of having committed the horrible crime, but there was no evidence sufficient to detain her and she was released on Monday.

All the parties are Mexicans, and the parents of the lost babe are quite young, having been married scarcely a year.

The Czar's Highest Aim.

According to The Vienna Tagblatt, the czar's highest aim is to be crowned "emperor of Asia," on the site of the holy sepulcher at Jerusalem. The Crimean war had its origin in the quarrels over the holy places in Palestine, and was a continuation of the conflict between east and west which the crusades left still unsettled. Every step of the Russians toward Constantinople is thus a step toward Jerusalem. It is of great significance that the Emperor Alexander III confides much more upon the power of religious enthusiasm than either of his predecessors did. He wishes to procure a more official and ostentatious consecration of his religious authority, and to have his position emphasized as the supreme protector of the eastern churches and the orthodox faith, and so rally all Greek oriental churches and peoples around the person and office of the czar as the Constantine and Justinian of the modern world. This bold project has been long in preparation; it is never lost sight of in any diplomatic movement, and no sacrifice of money is thought too great to secure this end. Numbers of settlements of eastern monks, of apparently harmless and unpretending character, have been and are being founded, and Russia finds the money for the purchase of the land.—Boston Transcript.

Ten Rules for Bathers.

When suffering from violent excitement, do not bathe.

Undress slowly, but then go directly into the water.

Take your time on the way to the bathing house or beach.

On arriving at the beach inquire about depth and currents of water.

Do not remain too long in the water, especially if not very robust.

After meals, and especially after taking alcoholic liquors, do not bathe.

When suffering from suddenly occurring or from continued illness, do not bathe.

Jump in head first, or at least dip under quickly, if you do not like to do the first.

After sleepless nights or excessive exercise, do not bathe, unless you first rest a few hours.

After bathing, rub the body to stimulate circulation and then dress quickly; then take moderate exercise.—National Druggist.

Value of the Eucalyptus.

The eucalyptus tree grows in the greatest luxuriance on the coast of Lower California, and wherever it abounds the climate is found to be agreeable. The whole region in the vicinity of Santa Barbara is its natural soil, and the valleys are filled with its spicy aroma. Its leaves are very peculiar, and ready to burn as soon as they fall, incredible as it may seem. They are gathered by the dwellers of the coast towns, and used for kindling, like we use pine shavings here.—Globe-Democrat.

A large and varied stock of very choice liquors and wines has been received by J. D. Rittenhouse, which he will sell at rates that cannot be discounted anywhere. The choicest whiskeys, brandies and wines of all kinds are on hand in quantities and prices to suit the trade. It is the intention of Mr. Rittenhouse to close out this line of merchandise entirely and he offers to dealers very bargains. Call and see him and learn prices.

Surveyor-General Julian is not appreciated. He asks the government for \$63,000 with which to lay bare the gigantic, inexpressible and all-together huge land frauds in New Mexico. Congress quickly appropriates \$3,000 and cooks its eye for further developments. The \$60,000 will do the country more good remaining in the treasury than in passing through the surveyor general's hands.—N. M. Stock Grower.

Arizona mine holders whose properties run low in silver and high in lead are advised to hold on to them for the present at least. There is every prospect that there will be a great demand ere long for such ore for fluxing purposes, and the Grant and Argo smelters at Denver are already offering a bonus for it.

Governor Bartlett, of California, has been stricken down with palsy, and there is but little hope of his recovery.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, Tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. D. Rittenhouse.

Drew & Bamrick are the mail contractors to Silver King and Pinal. The best stock and quickest time made.

M. B. Mullen.

Any one knowing the whereabouts of M. B. Mullen, formerly of Silver King, will confer a favor by addressing his sister, Mrs. Henry Block, Gridley, Botte County, California. 20-3

For Rent.

A furnished house of three rooms will be rented by the month or a lease of six months or a year given. Apply to D. C. STEVENS, Florence.

A. T. COLTON,

CIVIL ENGINEER AND SURVEYOR, Irrigation Works a Specialty. Office with Oury & Guild.

Saddles, Harness,

and

Carriage Trimming.

MARTIN WAER. W. S. KENGLA. WAER & KENGLA. TUCSON, Arizona.

Gentlemen, give Waer & Kengla your Saddle and Harness work—by so doing you can buy a Saddle, Harness or Hamestrapping, as cheap as by the dozen in California. We appreciate your employment. Work guaranteed to give satisfaction or money returned. We ask but one trial—it shall cost nothing—avail yourselves of it—to save the country, and keep your money at home.
